A Personalized Initiation of Priestesses at the Temple of Roses

Reconnection - Empowerment - Becoming

Welcome to the Temple of Roses

This initiation is not about becoming a priestess as something new, it is about revealing the priestess you have always been and that was hidden like a precious gem that has been forgotten

A space of sharing, authenticity, creativity, magic, Light.

A space where you can feel free to travel with the Rose, free to be the one that vibrates within you, free to share with other Priestesses.

The Roses invite you to live an experience of transcendence towards what is truer and more authentic within you.

The potential change that the Roses invite you to experience is critical for the times we are living in and will help you experience the spiralling transformation from within so that it spreads to the outer world.

The golden path preparation

The Roses introduce us to the frequency of the Great Cosmic Mother, they open the celestial path and build up a mystical bridge to meet with her and understand her vibrations and teachings...

Our Cosmic Mother, nurtures, feeds, awakens, and accompanies us with her golden embrace and supports us in our moments of transformation. With her grace and beauty, abundance, and power, she assists us to rebirth OURSELVES again and gives us strength to cross the veils and meet with our Forgotten Shining Golden Essence. She is compassionate, wise, confident, responsible, joyful, and so many other things. She has come as Isis, Mary, Hathor, Athena, Demeter, Gaia, Shakti, Dakinis, Shekhinah, Astarte, Ishtar, Rhea, Freya, Nerthus, Brigid, Danu, and so many other goddesses and beings. She is the Earth and Sky, she is the stars and oceans, she is our mother and daughter, she is Us.

With this initiation, you will be introduced to the Golden Cosmic Mother, she will guide us in many ways to connect and give a Full Manifestation to our Essence.

« Delighted with this continuation of the initiation to the Temple of Roses. After doing a first course within a group, meeting the Roses, entering the Temple of the Roses, learning about therapies with the Roses and many other explorations, I am delighted with this second course. with Ouassima more in individual accompaniment. This accompaniment is rich, subtle, expansive for your essence within the temple of Roses which support and carry you. Encounters adjusted to where you are and your own energy. A big thank you for this possibility of evolution and knowledge but above all the possibility of Being its true essence. »

This initiation with you at the Temple of the Rose is for me, among all the training I have been able to do, the most revealing and profound! An initiation is exactly that, a path that opens up and that will accompany us I think throughout our lives. Today on my path and in my work as a therapist they are omnipresent. A common thread, a Red thread that guides me in connection for me with the vibration of Mother Mary, the Black Virgin and Mary Magdalene.” Elodie.

Are we fit?

This Initiation is for those who:

- Feel called to Roses and the path of initiation as a priestess,
- For explorers and seekers of truth,
- and those who are open to different schools of thought,
- For knowledge seekers and book lover and you want to get serious about who you are and your practice.

This initiation is not for you if you don't have time to study or dedicate to your practice in order to reveal the priestess within you.

This initiation is not a magic pill or a fancy house, but a long-term work and commitment as we will be craving a stone that becomes a diamond with practice and dedication.

This initiation is about opening yourself to the multiplicity of your being, it is not for those who think there is one way of doing or believing in things.

During this initiation, you are expected to do monthly journaling work, meditations and to have contemplation time. I can help you get clarity and meaningful progress to achieve your goal to set your practice, this support will be **tailored to you and your needs**; however, there are no perfect answers, **everything is evolutionary like a spiral**, you need a good sense of openness, compassion and adaptation as I am myself in constant evolution and as I continue to carve myself to reveal the diamond I am.

Note: I am not a psychotherapist, please keep in mind that I am a Priestess and guardian of the Temple, if there is some work to be done in some practices, I will refer you to the right specialists.

To directly enter the Temple – Register and schedule a meeting.

Entering the Temple of Roses is to be in accordance with the values of the Temple.

Becoming Priestesses requires an investment on your part, of your time, to leave a place in your daily life for this initiation.

« Evolving » requires a daily commitment and the proposals, exercises, and meditations of the Temple help you to achieve it.

This is initiatory process that can change your inner and outer vision. It is important for us to keep an atmosphere of trust, sharing and compassion in circles and programs, that is why we ask you to answer some questions to get to know you better and see if we are fit.

If you choose the 3d way, please send me an email and just respond with the heart, I will get back to you with a zoom link to meet and start the training:

- Tell me in a few lines who are you?
- Where are you in your spiritual practice at the moment?
- What training have you taken? What did you learn from them?
- Why are you interested in this training and what do you think it can bring you?
